Go  
**GREEN**  
with Morph

Written by Lee Price  
Illustrated by Perry Rowe

Morph's an eco-monster.  
He's green inside and out.

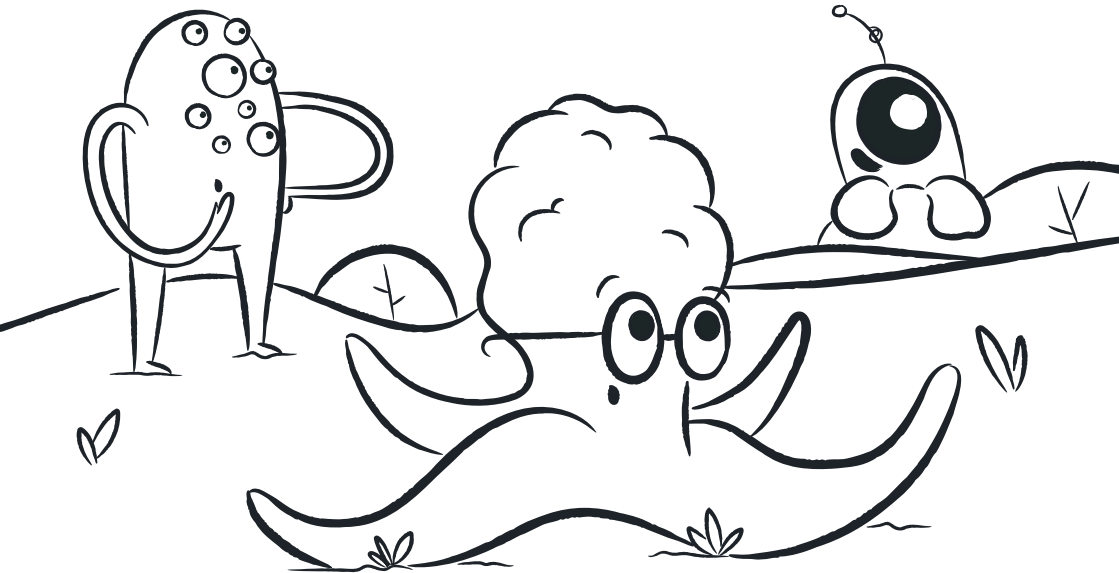

It's rivers, trees and bugs and  
bees he cares the most about.

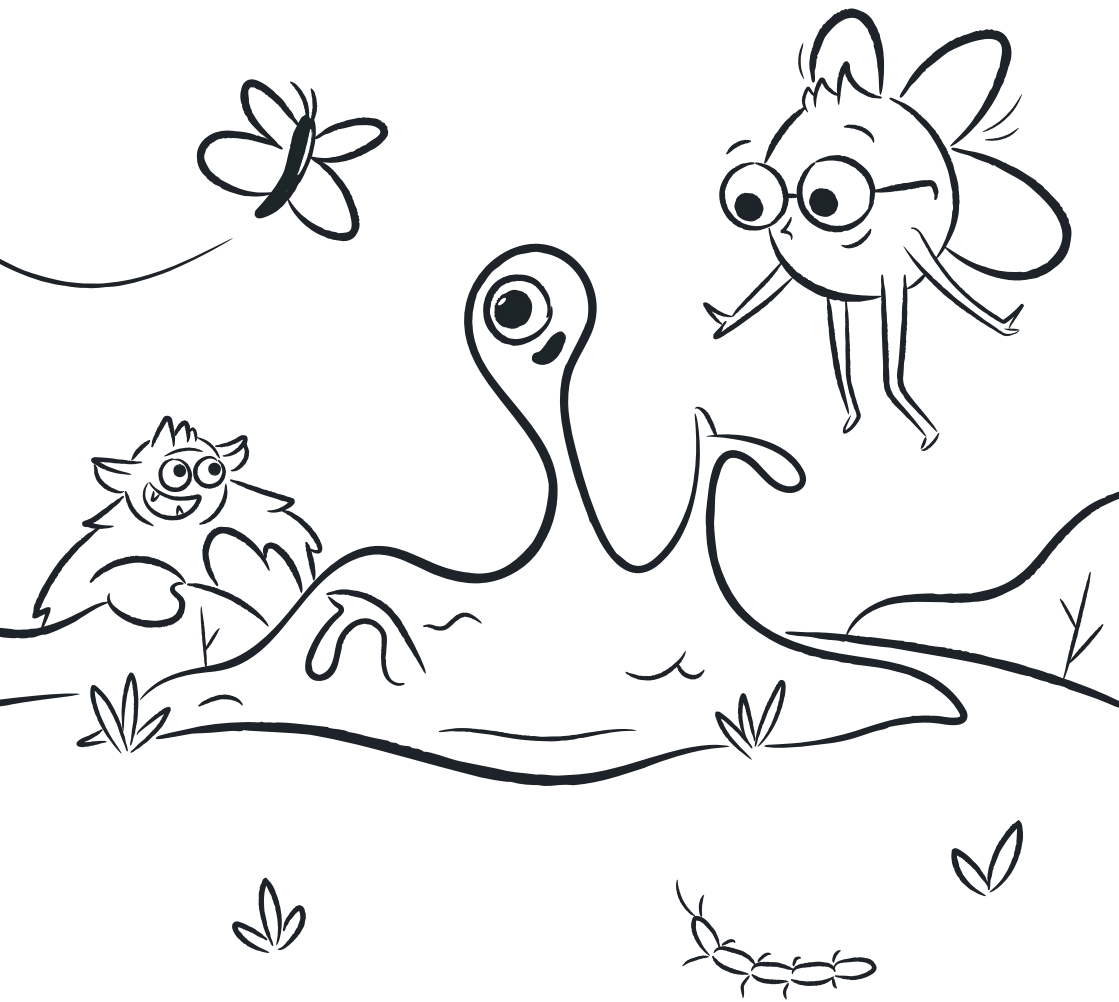

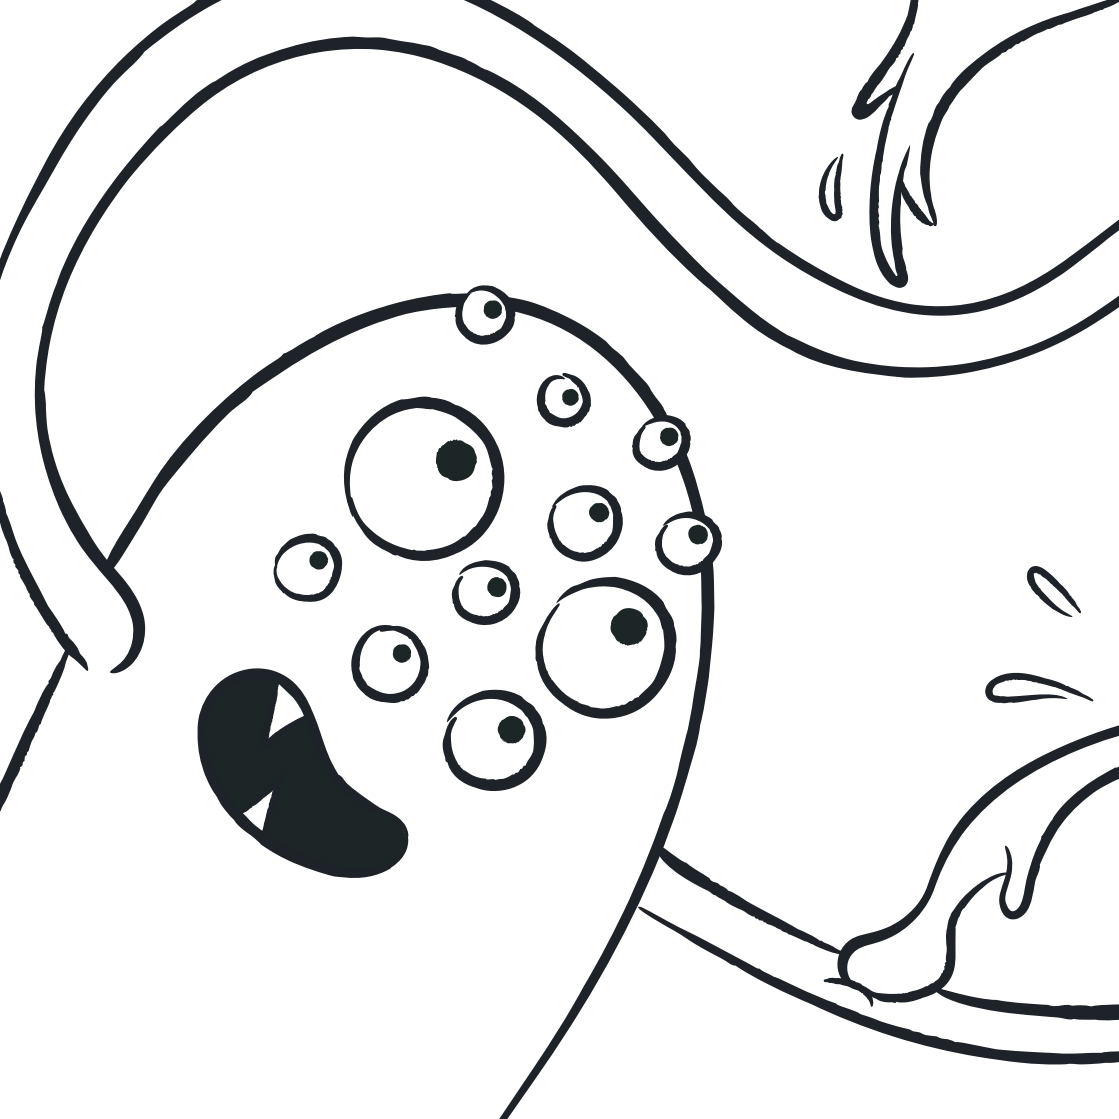

His friends want to be green  
like him and help the planet too.

‘There’s lots of ways to help,’ said Morph.  
‘I’ll show you what to do.’

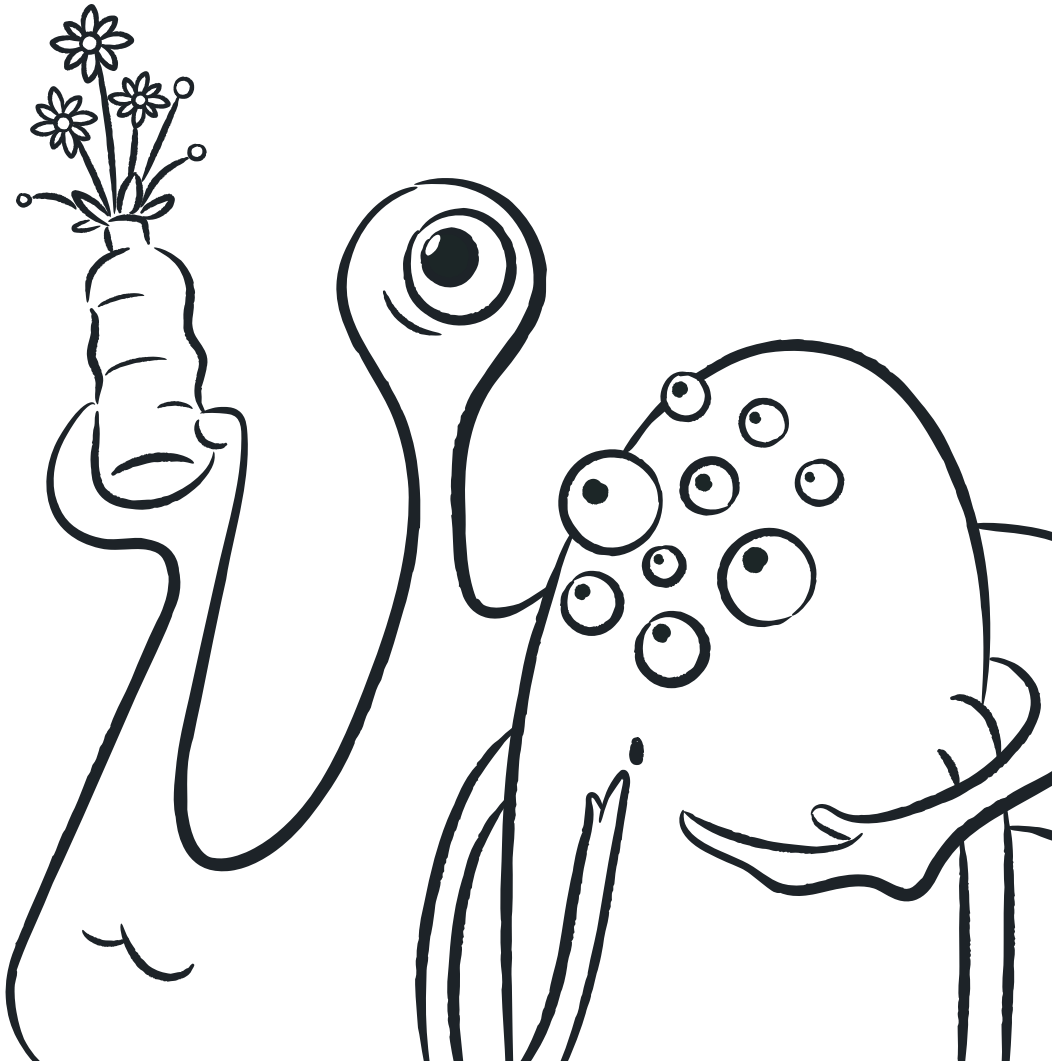

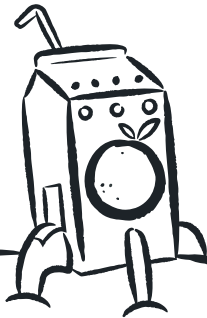

'Let's be green together,  
it's easy if you try.'

'Purple can be green,' said Morph.  
'And I can show you why.'

'Always check the labels on  
your milk or orange juice.

If they can be recycled,  
they can have another use.'

'Let's be green together,  
it's easy if you try.'

'Magenta can be green,' said Morph.  
'And I can show you why.'

'When you're going out,  
switch off the screens  
and fans and lights.

Only use them when you're home,  
or when it's dark at night.'

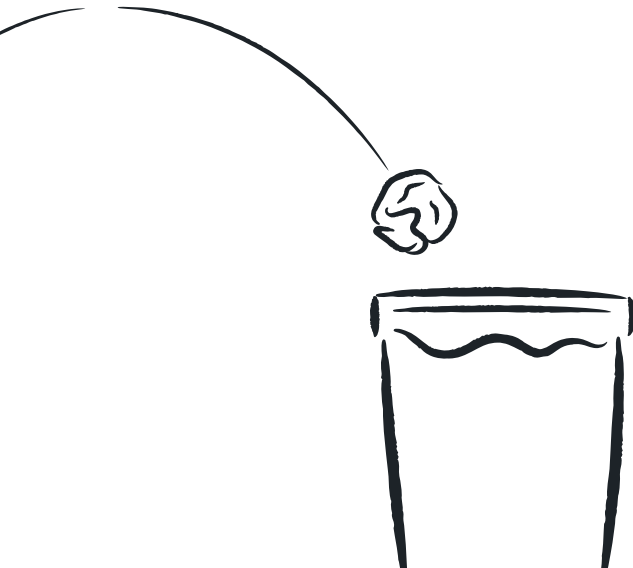

'Let's be green together,  
it's easy if you try.'

'Orange can be green,' said Morph.  
'And I can show you why.'

'Pick up rubbish off the ground  
and toss it in the bin.'

If everybody does their bit,  
then all of us can win.'

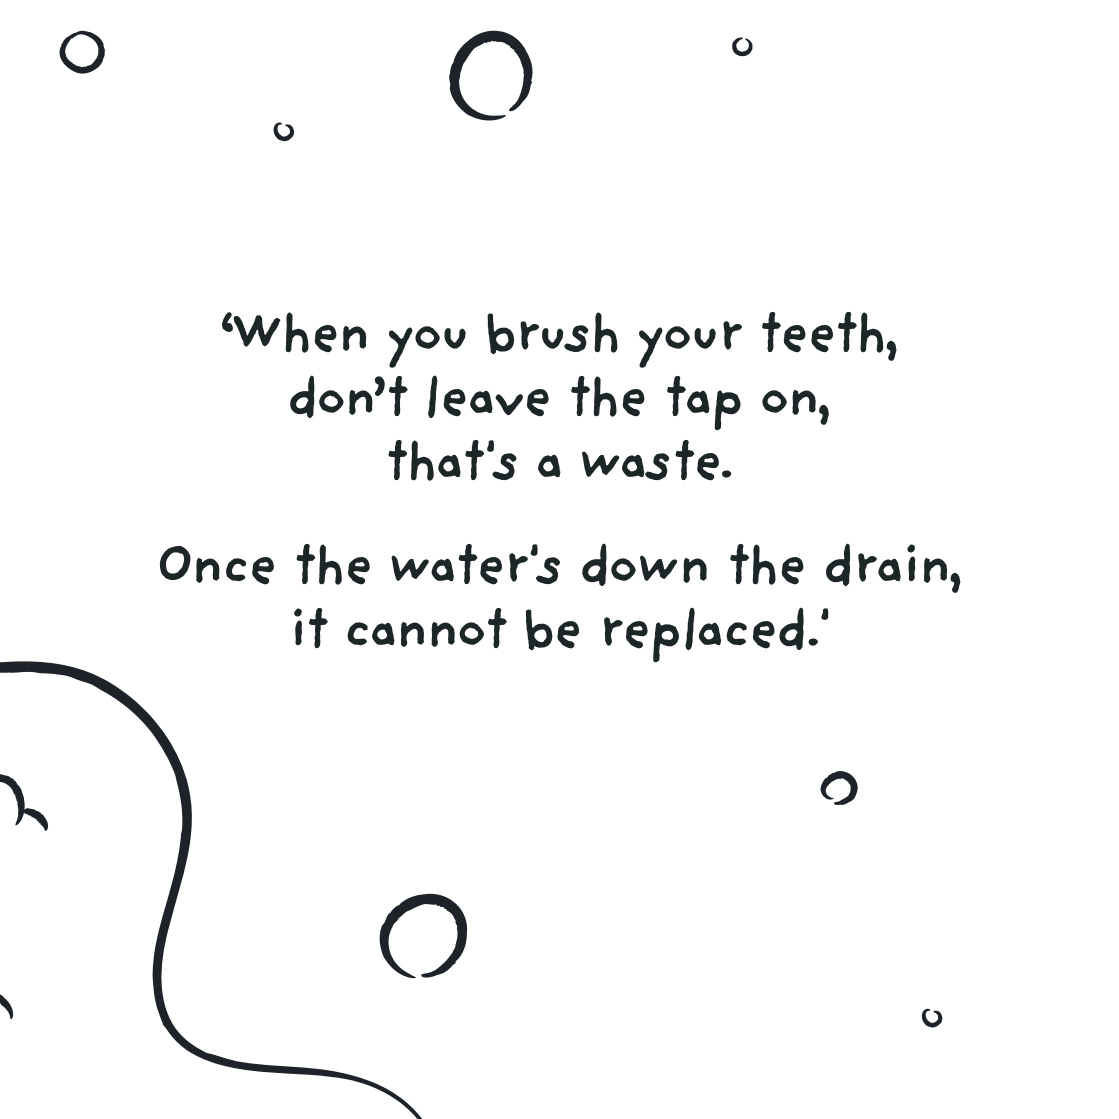

'Let's be green together,  
it's easy if you try.'

'Yellow can be green,' said Morph.  
'And I can show you why.'

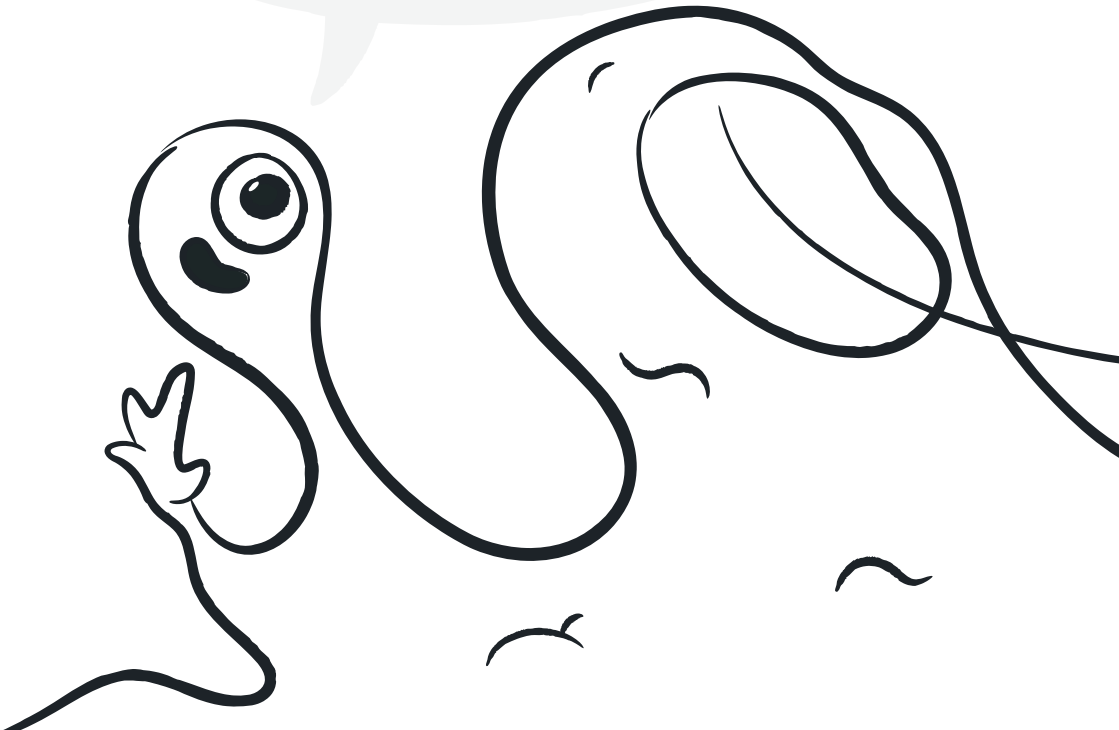

'When you brush your teeth,  
don't leave the tap on,  
that's a waste.

Once the water's down the drain,  
it cannot be replaced.'

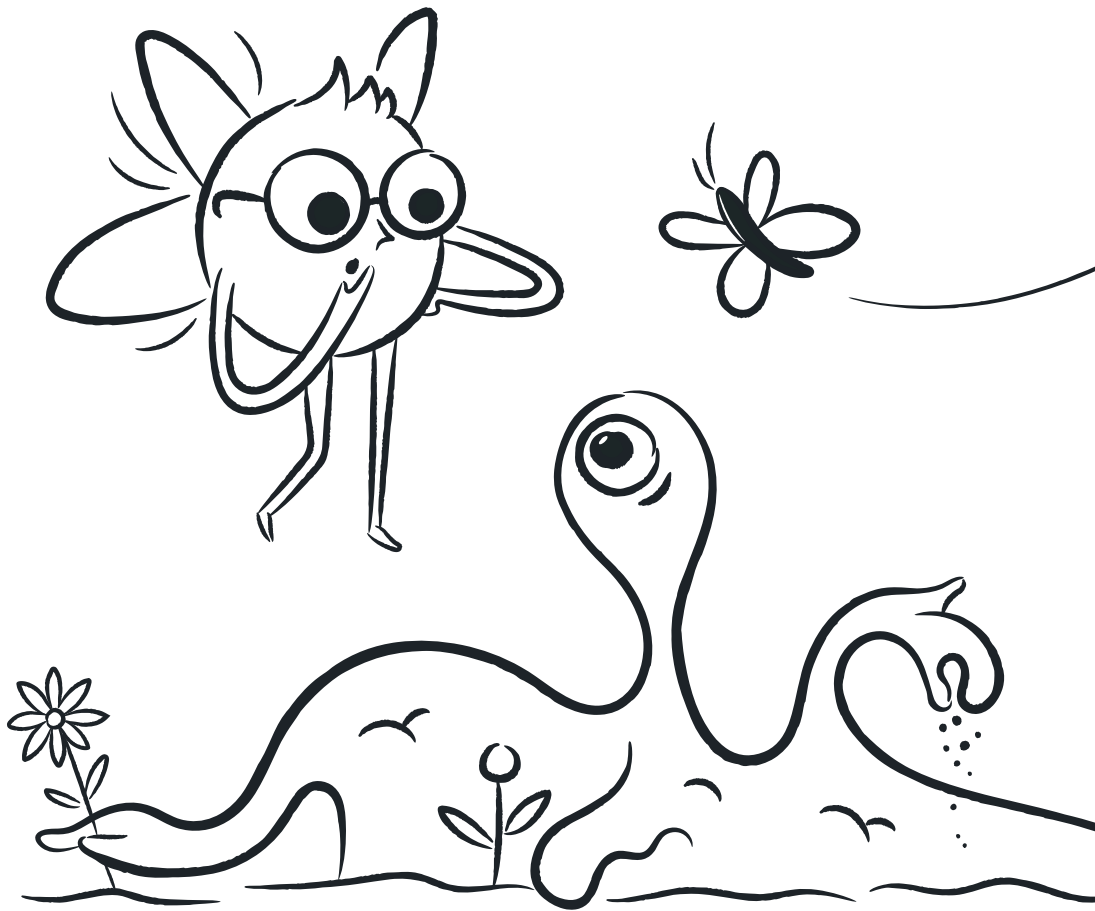

'Let's be green together,  
it's easy if you try.'

'Coral can be green,' said Morph.  
'And I can show you why.'

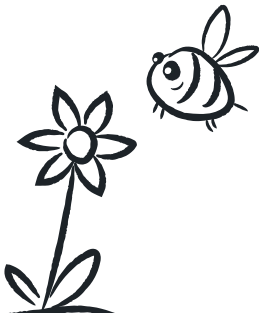

'Make some space at home to plant  
some flowers, herbs or trees.

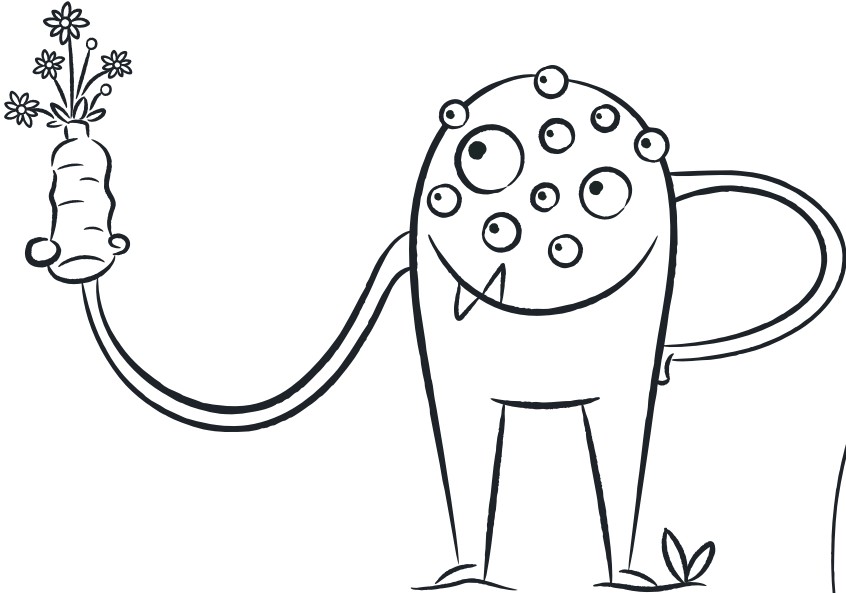

It's fun to do and makes a home  
for butterflies and bees.'

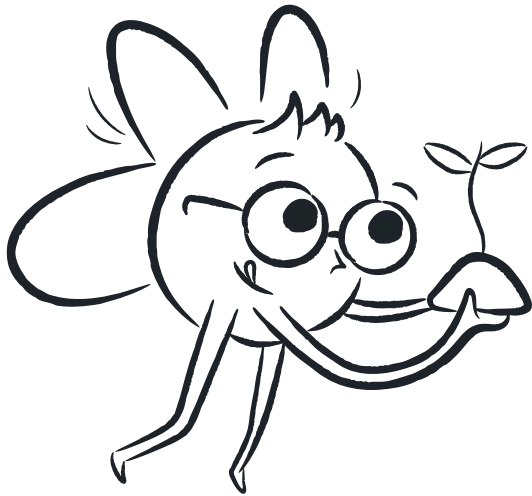

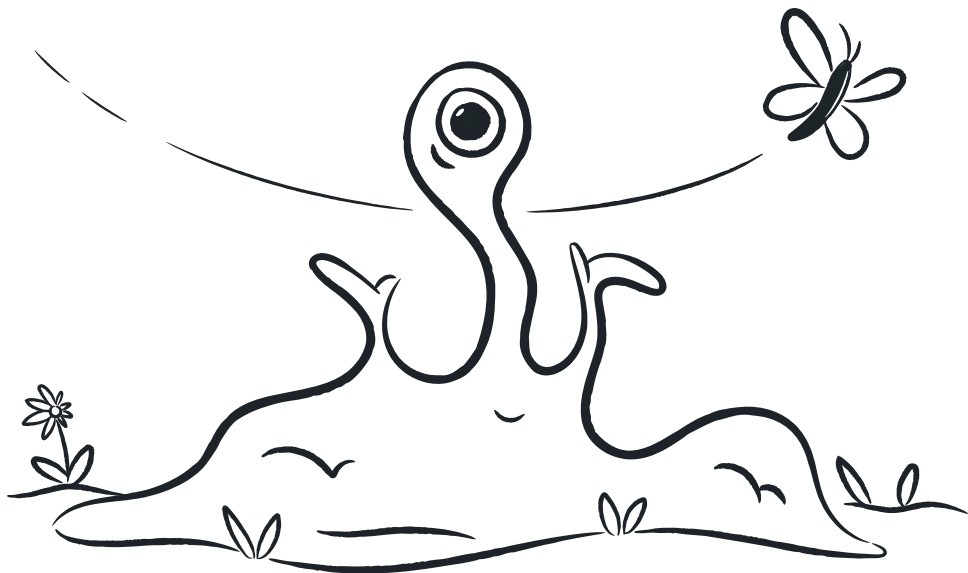

'We may be small but each  
of us together plays a part.

These changes make a difference  
and today's the day we start...

...all our actions will add up.  
There's so much we can do.

Let's all go green together and  
the change can start with you.'
